Hi Ravi,

Here's my rough comments.

- Related works is too long compared to other sections
- There's no originality in Section 3:DMP, isn't it?  
The key concept or framework should be written here.  
How about "Robotic Cloth Manipulation using DMP" ?
- 4: Overview of the system should be moved to  
5: Experiments section as a subsection.

Best,

-Tom
